

This chart shows you the probability of any opponent holding an Ace with a higher kicker, an Ace with the same kicker, an Ace with the same kicker as you, but suited, or a pocket pair. Where the probability is greater than 50%, this area is shaded in green. Of Particular interest, is that if you hold AK pre-flop, someone else, at a 9-handed table is usually ahead of you before the flop.

### NUMBER OF PLAYERS LEFT IN THE HAND PRE-FLOP

You Hold	1	2	3	4	5	6	7	8	9
AK	6%	12%	18%	24%	30%	36%	42%	48%	
AQ	7%	14%	21%	28%	35%	42%	49%		
AJ	8%	16%	24%	32%	40%	48%			
A,10	9%	18%	27%	36%	45%				
A,9	10%	20%	30%	40%	50%				
A,8	11%	22%	33%	44%					
A,7	12%	24%	36%	48%					
A,6	13%	26%	38%						
A,5	14%	28%	42%						
A,4	15%	30%	45%						
A,3	16%	32%	48%						
A,2	17%	33%
